Evan Tierce earned more than his degree when he attended Texas State - he also managed to earn the love of one very special girl: Jaynee Sherman. The two met through a mutual love of sports, she played soccer and he played baseball. Evan treated Jaynee to more than a beautiful view at the Botanical Gardens while on their daily run. As they stopped for a rest at a gazebo, Jaynee was surprised to see Evan's small niece and nephew approaching with baskets in their hands. In Evan's nephew's basket was a ring. Jaynee was elated with the beautifully planned proposal. To make things even better (though slightly more complicated), Evan was drafted by the Yankees soon after, leaving the wedding plans solely in Jaynee's hands. Undeterred, she set about planning the perfect winter wedding. In January their hard work finally paid off when friends and family joined them to celebrate in Austin. ♦
